DEAL RISKS & OBJECTION HANDLING

SALES OPPORTUNITIES & EXPANSION

Revenue Growth Potential: Leverage Cprime's expertise with Confluence/Jira to establish a strong rapport and build trust with Apple's internal teams, leading to further collaboration. • Offer a pilot project focusing on a specific Apple technology compatibility challenge to demonstrate Cprime's value and secure a larger engagement. • Propose a comprehensive

digital transformation assessment to identify additional areas where Cprime can optimize Apple's cloud infrastructure and DevOps processes, expanding deal size.
